There will also be a **colouring competition 'Design a Bandana'**. Children will bring home the template next week and this must be returned for judging on **Friday 19th November**. The entrance fee is **50p** per child.

Please use the link below to make your contributions as we will not be accepting cash. Thank you for your support.

Read to Succeed

At the KS1 Stars Assembly this morning it was an absolute delight to see so many children getting reading certificates - lots of Big Friendly Readers (25 reads at home) and a few Magic Readers (50 reads). Thank you so much for supporting your children at home with their reading as this makes such a difference to the progress they make. Please keep going, it would be brilliant if all the children reached Golden Reader (200 reads) by the end of the year.

British Legion Poppy Appeal

As many parents have seen on Dojo, Trinity School is supporting the British Legion Poppy Appeal as we feel that recognising Remembrance Day is a really important part of our school calendar. We are aware that some parents are concerned at the plastic used in several items available to the children and would like to assure you that the traditional paper poppies are also available, in fact we have far more of those than we do the plastic items. One of the reasons behind sharing the image of the items available was to enable parents to talk to their children about the range of items so that you can guide your child in their choice. Making a donation and selecting an item is always optional, we do not expect all families to support every fundraising activity we facilitate as a school, but remain grateful for any support you are able to give us. We will make the British Legion aware of the concern shared with us regarding the use of plastic and we encourage parents to also get in touch with the British Legion if you wish.

A Tiny Forest is a dense, fast-growing, native woodland about the size of a tennis court. These are not only an attractive location for wildlife, but for people as well, and can provide a range of benefits in the fight against climate change.

The planting days are free to attend and open to all ages, and will be in line with local Covid-19 considerations. **Please note there will be large machinery on site prior to planting and any damaged grass will be reseeded.**
