## Music Listening

Joseph Haydn -

### Trumpet Concerto (3rd movement)

Joseph Haydn was an Austrian musician who spent most of his career in the service of an aristocratic family in Hungary but became one of the most famous and well-respected composers of his time. As well as symphonies, string quartets and piano trios, Haydn wrote a vast number of solo piano pieces, songs, choral works, operas and concertos. One of Haydn's most popular works today is a concerto for trumpet, which he wrote in 1796 for a his good friend, Anton Weidinger, who had invented a new kind of trumpet with five keys, which allowed the instrument to produce more notes of the scale.

Haydn's Concerto for Trumpet in E flat was a ground-breaking addition to the trumpet repertoire, although it is a typical example of a concerto from the Classical period. It has three movements, and uses many of the popular musical conventions of the time, including balance and symmetry.

**Listen out for:** The Finale, which, like much of Haydn's music, is peppered with good humour and fun!

*~Happy Listening~*
